**DISCUSSION about PSYC2000:**
Bill Griffiths is pulling PSYC2000 because of objections to the PreRequisite (PSYC1101 & declared minor in Psychology) – is this necessary?
Nicole Martin (Chair of Psych) – this class is only for minors
Bill Griffiths: How many courses are designed for minors across the university?
Nicole: When we were asked to create a minor (which we objected to) and we were told we needed a minor specific class.
Bill Griffiths has questions about why a department would be forced to create a minor.

**MOTION TO APPROVE PSYC PACKAGE made by D. Michael Franklin**
SECONDED by Lee Langub
APPROVED: 15 / Opposed: 1
The Motion passed

**HONORS COLLEGE**

- University Honors Program (Change to Program)

**Reps from Honors College: Rita Bailey & Lynn Stallings:** Desire for changes are to create a track without a capstone. We are introducing some “0 credit classes” – it helps us track students, keep track of discovery and learning separately. There is a plan to add 3 additional classes as we accommodate changes in PEGS program.
Doug Moudie objects to “0” credit classes for the lack of pay of instructors and the students having to do work without credit.
Dr. Wade-Berg – the goal would be to revise Gen Ed to get this option into institutional options.
Additional discussion ensued between Doug Moudie and Honors College Reps.
Bill Griffiths pointed out they just said that many of them are “0/1” and the chart in front of us doesn’t reflect that.
Bill Griffiths asked what is different. Discussion ensued about the changes in Financial Aid program changes that we are trying to work around. Jennifer Wade Berg reiterated that’s why she would want these kinds of courses go to into Area B under “institutional options” so they can get paid for. Clarification: it’s a work around financial aide & HOPE. We are trying to create a flexible student experience.

Bill Griffiths: does this affect BOR rules? Amy: “no”

    Description)
  - HS 3960 Professional and System Responses to Maltreatment (Prereq/Coreq and
    Description)
- B.S. in Human Services (Change to Program)

PULLED: HS 3500 Research Methods for Human Services (Prereq/Corereq)
Bill Griffiths is questioning: Why is the language “HS majors or Non-majors with permission of department” in there? Jennifer Wade Berg explained and declared it will go away in the 2nd revision (regarding “Interest”)

TANGENT:
Dr. Wade-Berg sent an email regarding how every program would need to do their own audit. Pam Cole: in the last UPCC meeting, there was confusion on how programs are “messed up” in relation to compliance. In truth, there are a lot of areas in General Education where we are not in

4
compliance and we need to get in line. If we line up, it will make future decisions easier. It’s not wise to be making revisions to General Education as well as your upper division.

Dr. Wade-Berg brought back to the discussion around the program change and went through the changes (in Curriculog). She is using this as an example of coming into alignment with the policies and Gen Ed. We cannot just pick a Gen Ed course to make it a PreReq to a course in the major. Comment from Pam Cole: any course that is an option in the Gen Ed area – you cannot use it as a required PreReq in any of your Area F requirements – there are exceptions.

Amy Jones clarified the goal of the audit and reminded all that instructions will be coming. Discussion ensued about how to adjust and realign to be compliant.

SOUTHERN POLYTECHNIC COLLEGE OF ENGINEERING AND ENGINEERING TECHNOLOGY

Department of Mechatronics Engineering
- ENGR 3398 Experiential Engineering Internship (New Course)
- Kevin McFall clarified: this package is actually for the entire college, it just had to come through a department. You can do an internship OR a Co-Op. He explained that this “0/0/3-12” would do what COOP2000. Some students want academic credit for an internship. Some students don’t need it; therefore if they register for 2000 it will cost undue money. This would be for those who want it on their transcript not on their fees. Note PreReq: “variable 3-12 audit hours, but 0 billing hours.”
  - Q: How do you verify participation
  - A: Administered through The Office Formerly Known As Career Services
  - Q from Michelle Head– if they’re not enrolled in the semester can they enroll?
  - A from Amy: yes; as long as they’re active.
  - Kevin – the credits are variable

- GFA 2050 Intro to Special Effects Makeup (New Course)
- GFA 2060 Production Accounting (New Course)

Erin Ryan from the School of Communication & Media presented.
We are moving GFA administration from TPS to SCM. There are new course descriptions &
designations. These courses are taught across the USG and TCSG, taught by GFA instructors (hired by
GFA offices), taught off-campus (Pinewood or Gwinnett). We are going to be the administrators of the
off-campus program.

These were not reviewed by Executive Committee due to the submission but there’s a waiver here.
Danielle Buehrer– Can we look at GFA1000
My understanding was that you’re not doing the “18 credit hour certificate program” – if you go that
route, we have to do a substantive change for each site (based on contracts with unrecognized
institutional entities). Certification is different than Certificate program.
Erin conferred with Amy about this – the course descriptions don’t comply with KSU but the courses
were created to match across the USG. Discussion ensued.
Dr. Wade-Berg also had this question. Is it a certificate? Is it a program? I’m asking for any and all
paperwork associated with this package. We need to see a summary of the program to accompany the
proposals – its hard to wrap our heads around this. There are a lot of questions around hands-on vs. how
much they are watching people do things. We hesitate to approve without more details on how these
courses are playing out.
Erin: different institutions across the USG are treating these courses differently
Dr. Wade-Berg: is this a Baccalaureate program or a Continuing Ed

POINT OF ORDER made by Bill Griffiths: HOW DO WE SEND THIS TO EXECUTIVE
COMMITTEE?
MOTION TO TABLE ALL GFA PROPOSALS SO THEY ARE DISCUSSED by Executive
Committee made by Bill Griffiths
Seconded by Susan Vande Ven
Bill Griffiths expressed concern about administrative deadlines that we cannot meet.
APPROVAL TO TABLE GFA courses for Executive Board readings: ALL

Policy Discussion: University Graduation Requirements
Jennifer Wade-Berg led a riveting discussion about our two existing Graduation Requirements that exist outside of Areas A-F: WELL1000 and KSU1101 (First Year Experience).

We have two institutional requirements. Do we need them?
Is there a better way to organize them to get the students the experiences without adding expenses and time (3-6 credits)?
These institutional requirements affect students.
Comments were made from Bagwell (129 is our limit) and Architecture (they have 152 credits and a USG waiver. We have a lot of programs with waivers.

Option: Gen Ed is supposed to deal with Inst. Requirements in Area B.
Doug Moudie: We need clarity on the history of these course
Kevin McFall: Institutional Effectiveness. KSU1101 dates back to KSC1101 – required in 2005.
Ruth Goldfire from First Year Studies shared: all students with fewer than 15 credit hours as “first time full time students’ must take a first year seminar or learning communities (which can be built with or without a seminar). If a student never takes this course, it will not prevent them from graduating.
Eg. Engineering – because of the high level credit hours, they have a 2-credit hour course that serves as their Intro to the major and this first-year experience. Same with Science & Math.
Those courses are taught within that college with learning experiences.

Further background came on the consolidation – programs with 130+ credit hours don’t require the WELL requirement.
Discussion ensued around WELL and its benefits.
Amanda Wansa Morgan questioned: can we move WELL1000 or KSU1101 into Gen Ed? Pam Cole pointed out No.
Amanda Wansa Morgan then suggested we could combine these two courses into one?
   ○ This doesn’t work because KSU1101 is designed for 15- credit hour first year students while WELL is required of all.
Orientation courses nor Wellness courses cannot be placed in Areas A-F
Georgia Southern – under core curriculum – “additional requirements”
Amy Jones pointed out it could move to the departments – consider either everybody works it out or work it into programs.

Lynn Stallings asked: In a Momentum Year Summitt – there was material distributed about including first year seminars in Gen Ed.
Michelle Head – a lot of the proposals we’ve reviewed lately include intro to career style courses in each department.
Susan Rouse from Philosophy stated – but many of our Area F courses are prescribed by the BOR.
Dr. Wade-Berg responded: we have flexibility with multiple pathways.
Fruitful discussion ensued around whether students benefit best from an Intro to the Major course in each area or not. How does this effect transfers?
What happens to Wellness and how do we monitor the content if its being spread out amongst departments? Concern raised over pushing this through.
Dr. Wade-Berg clarified that’s not happening – this is just the beginning of a conversation.
Policies will need to be revised – visited by Faculty Senate – approved by Senate – and then returned to UPCC in the long run.
Susan Rouse (GE Council) – this conversation needs to come to the Gen Ed Council.
Doug Moudie brought forth a new option/alternative – we keep WELL1000 and we reduce every major down
Many in the room responded: That’s never gonna happen…
Natasha Habers: Learning communities take a number of different forms. There are even some on the Marietta campus that don’t incur KSU1101; therefore they don’t require coursework. Kevin responded by expressing frustration with that model because of a lack of accountability.
These two courses are integral to retention. I want to be cautious in action on these courses. USG just awarded the First Year Programs an innovation award. Discussion ensued around the flexibility of the courses and where they count. Amy Jones – we’d like to figure out how to reach all of the students without adding burden of time and money. (Also so it aligns with the audit).

D. Michael Franklin – Point of Order to clarify the questions on the floor.
Dr. Wade-Berg clarified: we are having a conversation to make a recommendation.
Dr. Wade-Berg – we are going to meet as an Exec. Meeting to get the data we need to form a recommendation.

Pam Cole – Please see the emails about self-audits. Encourage UPCC members to attend training sessions regarding BOR rules. It doesn’t help to try to audit and align and then fall apart. UPCC members – please come!
